

# SHUWEN GONG

## Transport Systems & Mobility Engineering

### PROFILE

M.Sc. student in Mobility Engineering at Chalmers University with a background in aerospace systems engineering and digital system design.

Experienced in modeling, control, and system-level optimization. Passionate about autonomous, electric, and sustainable freight solutions.

### CONTACTS

+46 768924894  
shuweng@chalmers.se  
LinkedIn  
gswzds  
Göteborg, Sweden

### SKILLS

#### Control & Modeling

MATLAB, Simulink,  
Control System Modeling,  
Signal Processing

#### Engineering

Process Optimization,  
System Integration, PFMEA,  
Data-Driven Analysis

#### Programming & Tools

Python, C#, Git

#### Engineering

System Integration,  
Process Optimization,  
PFMEA,  
CATIA, CAD

#### Languages

English (IELTS 6.5)  
Mandarin (Native)  
Swedish (Learning)

### EDUCATION

#### M.Sc. Mobility Engineering

Chalmers University of Technology

2025.09 – Present

Göteborg, Sweden

- Focus: Vehicle dynamics, powertrain systems, control theory, and simulation.
- Relevant Coursework: Electric and Hybrid Vehicles, Propulsion and Energy Systems for Transport, Systems and Mechatronics for Mobility Engineering, Vehicle and Traffic Safety.
- Developed and validated PID controllers in Simulink for dynamic vehicle system models. Designed and implemented QSS-based hybrid powertrain supervisory control in MATLAB.

#### B.Eng. Aircraft Manufacturing Engineering

Nanjing University of Aeronautics and Astronautics (NUAA)

2013.09 – 2017.06

Nanjing, China

- Coursework in dynamics, materials science, control system fundamentals, and engineering mathematics.

### WORK EXPERIENCE

#### Final Assembly Process Engineer

Chengdu Aircraft Industrial (Group) Co., Ltd.

2017.07 – 2020.05

Chengdu, China

- Managed and optimized aircraft assembly processes using systematic engineering methodology and data-driven analysis.
- Coordinated cross-functional teams (engineering, quality, supply chain) ensuring system-level integration and production efficiency.
- Led international technical support in Pakistan, bridging engineering cultures for a new aircraft model deployment.
- Authored PFMEA documentation and secured a technical patent (CN210090631U).

#### System Designer

Zlong Games

2021.01 – 2023.05

Beijing, China

- Designed and optimized complex digital system architectures with cross-functional teams.
- Applied data-driven methodologies to improve system performance and long-term scalability.

#### Senior Game Designer

AST Games

2023.09 – 2025.02

Shanghai, China

- Led cross-disciplinary teams using agile methodology; applied data-driven analysis and iterative prototyping to optimize system performance.

### ADDITIONAL EXPERIENCE

Psychological Consultant Volunteer | KnowYourself

China, 2019.07 – 2019.12

Head of Editorial Department | Liuhuo Animation Club

China, 2013.09 – 2017.06
